FEATURES & BENEFITS

LJ

- Less than 3.5 pounds (including battery)
- Up to 5-speeds stepped or stepless
- Up to 4 dedicated motions with additional through selection capabilities
- Lithium-Ion rechargeable battery for enhanced battery life
- Power and battery LED indicators
- Low profile switches for protection
- 3 Digit high intensity LED for data display

LM

- 3 character 7 segment information display
- Raised "lip" to protect switches
- Smaller, ergonomic design
- Completely sealed design
- Stainless steel screws with sealing O-rings
- Lithium-Ion battery
- One piece aluminum case with reinforced corners
- Low profile switches for protection
- Rubber mounted internal circuit boards
- Sealed, one-piece, fixed mounted antenna
- Utilizes a frequency synthesized module vs. a tuned crystal

LP

- Less than 3.5 pounds (including battery)
- Stepless paddles
- Control up to five (5) motors independently
- Lithium-Ion rechargeable battery for enhanced battery life
- Power and battery LED indicators
- Low profile switches for protection
