

# RAYMOTE®

## INDUSTRIAL INFRARED REMOTE CONTROL SYSTEM

Raymote® Infrared Remote Control systems offer the ultimate in frequency-free wireless control solutions. A perfect fit for industrial applications involving over-head cranes, hoists and other equipment where the operator's ability to see and assess the situation is essential. Strategically placed sensors enable safe, restrictive operating range.

## FEATURES & BENEFITS

-  Line of sight safety
-  No radio frequency interference
-  No FCC license required
-  Easy to install
-  Uses affordable, off-the-shelf battery power
-  Controllable sensor placement lets you define operational area
-  Multiple system capability
-  Simultaneous command capability

## OPTIONS

2000

- Controls up to eight individual relays
- Choose from three different industrial grade, hand-held transmitter models
- Integrated sensor with receiver

4002

- Designed for operating cranes with three 2-speed motors
- Double detent motor control pushbuttons on transmitter
- System diagnostic
- Remote shutdown function
- Programmable alert function
- Operating range of 150 ft
- Sensor placement permits operating range modification
